

PRESS RELEASE

According to Order #94p by Prime Minister of the Republic of Belarus dated April 6, 2018, the Ministry of Energy together with the stakeholders will hold the **XXIII Belarusian Energy and Ecology Forum** in Minsk on **October 9-12, 2018**; the forum will include the international specialized exhibitions (“Energy. Ecology. Energy Saving. Electro” (EnergyExpo), “Oil & Gas Technologies,” “Atomexpo-Belarus,” “ExpoLight,” “Water & Air Technologies,” “ExpoCity”) and the XXIII Belarusian Energy and Ecology Congress.

The Organizing Committee headed by Deputy Prime Minister has been set up to prepare and organize the Belarusian Energy and Ecology Forum.

The purpose of the forum is to introduce state-of-the-art equipment and technologies to generate and distribute electric and thermal energy, automated systems, energy and resource saving technologies, to facilitate innovative development of the fuel and energy sector of the country.

Every year, the forum becomes a unique meeting venue for energy professionals and environmentalists from Belarus and other countries, thus contributing to expanding cooperation, sharing of advanced developments and projects.

Since 1995, the exhibition has been traditionally drawing attention of the leading Belarusian and international producers of equipment, technologies and materials for the energy sector, environmental protection, energy saving and electrical engineering; today this is one of the largest exhibitions of the kind in the CIS and the Baltic States. In 2018, **about 300 companies and organizations from 15 countries** will partake in the exhibition.

The exposition structure envisages the joint stands of the Ministry of Energy, the Ministry of Industry, the Ministry of Natural Resources and Environmental Protection, the Ministry of Housing and Utilities, the State Committee for Science and Technologies, the State Committee for Standardization, the Belarusian State Oil and Chemistry Concern.

The leading energy sector enterprises of the Republic of Belarus will participate in the exhibition: the enterprises under the umbrella of **BELENERGO SPA** — Belenergoremnaladka OJSC, Belelectromontazhnaladka JSC, Energy Equipment Factory (branch of Belselectrosetstroy JSC), Gomelenergo RUE (branches: Engineering Center and Energonadzor), Mogilevenergo RUE, Beloozersk Power and Mechanical Plant JSC, Brestenergo RUE (branch: Beloozerskenergoremont), Grodnoenergo RUE (branch: Enterprise of Means of Dispatching and Technological Control); the enterprises under the umbrella of **Beltopgaz SPA**: Belgastechnika RUE, Novogrudok Gas Equipment Plant JSC, Belgiprotopgaz Research Institute SE, and GAS-INSTITUTE SIRPD. The enterprises and organizations under the umbrella of the **Ministry of Industry** will present their products, which are well-known both in the country and abroad: Minsk Electrotechnical Plant named after V.I. Kozlov OJSC, Raton PJSC, Avtoprovod Shchuchin Plant JSC, BSW — management company of BMC Holding OJSC, MMP named after S.I. Vavilov — BelOMO Holding Management Company OJSC, Mogilevliftmash JSC, BELAZ OJSC, Minsk Automobile Plant — BELAUTOMAZ Holding Management Company JSC, Vityas JSC, the Brest Electrical Lamp Factory OAO, MZOR OJSC, Gomel Plant of Measuring Instruments JSC, KRASNY BORETS Machine Tool Plant OJSC, and others.

Permanent exhibitors are large Belarusian companies, including: Energopromis LTD, SIMATEK Companies Group, ElectroCabelComplect OOO, BELORGSINTEZ UE, Beleltika OOO, Local Systems OOO, Energocomplekt Production Association OOO, AVkom-Ekspress OOO, Promira OOO, Europribor NPC OOO, Belenergokip Scientific and Production Enterprise OOO, Grise ODO, Transmash OOO, Energo-Soyuz OOO, Spetsistema Scientific Production Center, Svetpribor UE, Volna ZAO, and many others.

There are well known brand-names among the exhibition participants: Siemens, Schneider Electric, ABB, Tavrida Electric, Eaton, Bertsch, KSB, CHINT, Klinkmann, and others. It will be the first time for the Engineering Division of ROSATOM State Atomic Energy Corporation (Russia) to take part in the exhibition.

An extensive forum agenda will include: a plenary session, forums, conferences, seminars, round tables, presentations by exhibitors for the national and international experts to introduce modern technological solutions in the fields of energy, petrochemistry, energy saving, and ecology.

The thematic events will review the Sustainable Development Goals applied to energy, ecology, energy efficiency, science and innovations, the prospects of nuclear power developments, the development trends of energy supply in the agro-industrial sector, approaches to managing production assets in the energy and gas distribution sectors, modern trends like the Internet-of-things technologies in the energy sector, smart energy for industrial enterprises, residential buildings and cities, and technological solutions for the energy sector.

17 information partners — leading newspapers and magazines, and the Internet portals — will highlight the forum events in Belarusian and foreign Mass Media.

The formal opening of the XXIII Belarusian Energy and Ecology Congress will take place on: October 9, 2018 at 10:00 in the Congress Hall of the Roofed Football Arena (Pobediteley Avenue, 20/2).

The formal opening of the XXIII International Specialized Exhibition “Energy. Ecology. Energy Saving. Electro.” will take place on: October 9, 2018 at 12:00 in the Roofed Football Arena (Pobediteley Avenue, 20/2).
